1.00		First Release	

	CAUTION RISK OF ELECTRIC SHOCK DO NOT OPEN	
CAUTION : TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER. ACCESSORIES SOLD SEPARATELY. CONTACT QUALIFIED SERVICE PERSONNEL FOR INFORMATION ACCESSIBLE ACCESSORIES.		

The lightning arrowhead symbol in a triangle means to watch out for live wires that might cause an electrical shock.

The exclamation symbol in a triangle indicates an important operational and service instruction.

WARNING

Please note that the user is liable for any incidents in operating the unit if it is altered or modified without manufacturer's approval.

CAUTION

To prevent electric shock and risk of fire hazards:
Do not use power sources except for that specified.

Do not expose this appliance to rain or moisture.

This installation should be made by a qualified service person and should abide to all local codes.

Compliments of STEMMER IMAGING USA
stemmer-imagingusa.com

1. SAFETY INSTRUCTIONS

Read Instructions

Read all of the safety and operating instructions before using the product.

Retain Instructions

Save this instructions for later use.

Cleaning

Unplug this appliance form wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

Water and Moisture.

Do not use this product near water or moisture.(For example. Near a bathtub, wash bowl, kitchen sink, or laundry tub, in a wet basement, or near swimming pool, etc.)

Installation

Do not place this product on an unstable cart, stand, or table. The product may fall causing serious injury to a child or adult, and damage to the product. Use only with a cart or stand recommended by the manufacturer, or sold with the product. Mounting should follow the manufacturer's instructions, and should use a mounting accessory recommended by manufacturer.

Power source

This Product should be operated only form the type of power source indicated on marking label.

If you are not sure of the type of power supplied to your home, consult your dealer or local power company

2. PRECAUTIONS

- **Do not use the camera in extreme temperature conditions.**

- **Do not use or store the camera in humid environment**

It may cause poor image quality.

- **Do not use the camera in unstable lighting conditions.**

Inconsistent lighting or flickering may cause poor image.

- **Never use the camera close to gas or oil leak.**

It may not operate properly.

- **Do not disassemble the camera.**

There is no user serviceable part inside.

- **Do not drop the camera or apply force on it.**

It may cause a malfunction.

- **Never face the camera to strong light for long periods of time.**

It may damage the CMOS sensor.

- **Do not expose the camera to rain or any types of liquid**

If wet, wipe the moisture out immediately.

Liquids can contain minerals that corrode the electronic components.

When this camera is installed near wireless communication devices that emits strong electromagnetic field, irregularity such as noise may appear in the image.

3. FEATURES

- 1/2.8 inch Sony STARVIS CMOS image sensor (approx. 2.1 million effective pixels)

Progressive scan

- WDR (Wide Dynamic Range) Function

- Video signals output

HD LVDS : Digital ITU-R BT.1120 - YcbCr4:2:2 16bits

Analog : SD CVBS (NTSC/ PAL), 1.0Vp-p 75Ω, Composite

HD SDI:

SMPTE 292M(1.485Gbps)	1920x1080p@25/30/29.97
	1920x1080i@50/60/59.94
	1280x720p@25/30/50/60/29.97/59.94
SMPTE 424M(2.97Gbps)	1920x1080p@50/60/59.94

- 30x optical zoom lens with F1.5 aperture(optical zoom + digital zoom = 360x)

- Day and Night

ICR for infrared cut filter

- Privacy Zone Masking function

- Communications protocol supported to be controlled remotely

-SONY-VISCA, PELCO-P/D, etc

- High performance functions

-3D-DNR (Digital Noise Reduction)

-BLC (Back Light Compensation)

-Motion Detection

-Defog

-Image flip

-HLC (High Light Compensation)

4. SPECIFICATION

Compliments of STEMMER IMAGING USA
stemmer-imagingusa.com

21Z30L		SPECIFICATIONS	
Sensor	Image Sensor	1/2.8" Progressive CMOS (2.1 mega)	
	Scanning System	16:9 Progressive	
	Sync. System	Internal	
	Effective Pixel	1920(H) x 1080(V)	
	Min. Illumination	0.05Lux (Day), 0.005Lux (Night), 0.0005Lux(DSS on)	
	Horizontal Resolution	1000 TVL	
Optics	Lens	30x optical Zoom, F=4.7~141 mm, F1.5(Wide) ~ F4.0(Tele)	
	Zoom	30x optical zoom + 12x digital zoom = 360x	
	Focus	Near/Far, Auto/Manual/One Push	
	Angle of View(H)	60.5 degrees (wide end), 2.3 degrees (tele end)	
	Min. working distance	T.B.D	
Functions	Back Light Compensation	WDR, BLC, HLC(High Light compensation)	
	Exposure	Auto / Manual	
	White Balance	Auto(3,000°K~8,000°K) / ATW(1,900°K~11,000°K) / Manual	
	Day & Night System	AGC / TDN(ICR)	
	Electronic Shutter	NTSC: 1/30~1/10000, PAL: 1/25~1/10000, DSS(~ 1/1sec)	
	Functions	Privacy Mask, Image Mirror, 3DNR, Flicker-less, Sharpness, Defog, DIS(Digital Image stabilizer), NegArt, Freeze	
Video Outputs	Digital Output (LVDS) ITU-R BT.1120 YcbCr4:2:2 16bits	1920x1080p@25/30/50/60/29.97/59.94 1920x1080i@50/60/59.94 1280x720p@25/30/50/60/29.97/59.94	
	SDI	SMPTE 292M(1.485Gbps): 1080p@25/30/29.97 1080i@50/60/59.94 720p@25/30/29.97/50/60/59.94 SMPTE 424M(2.97Gbps): 1080p@50/60/59.94	
	CVBS	Analog Composite(1V ± 0.2 Vp-p) NTSC/PAL	
	Control Interface	UART(5V level)	PELCO-P/D, SONY-VISCA protocol
			8bits data, 1 stop bit, no parity, 2400~115200bps
General	Operation Temperature	T.B.D	
	Power Input	12VDC (7V to 15VDC)	
	Power consumption	Max 5W (3.2W Lens inactive, 3.9W Lens active)	
	Mass	Approx. 250g (8.8 oz.)	
	Dimensions	96.6(D) x 50.0(W) x 60.0(H) mm

5.2. WHITE BALANCE

AWB : Color temperature is automatically adjusted to 3,000°K ~ 8,000°K

ATW : Color temperature is automatically adjusted to 1,900°K ~ 11,000°K

INDOOR : Color temperature is manually adjusted to indoor

OUTDOOR : Color temperature is manually adjusted to outdoor

MANUAL WB : Color Temperature is manually adjustable to adjusting value.

RED and BLUE gain can be changed for better pictures.

PUSH WB : Color Temperature is manually adjustable to adjusting value.

The One Push White Balance mode is a fixed white balance mode that may be automatically readjusted

only at One Push Trigger, while the camera is directed at a piece of white paper to obtain the optimum

state under current illumination.

One Push White Balance data is lost when the power is turned off. If the power is turned off, reset One Push White Balance.

5.3. EXPOSURE

MODE :

AUTO - Iris, gain and shutter can be controlled automatically.

MANUAL - Manual control of Iris, gain and shutter.

SHUTTER Priority - Manual control of shutter. Iris and gain can be controlled automatically.

IRIS Priority - Manual control of IRIS. Shutter and gain can be controlled automatically.

BRIGHT - Iris and gain can be controlled by control of brightness

SHUTTER :

Auto - Shutter controls exposure automatically when iris is manual.

Manual - Shutter is fixed, and gives the exposure control priority to other resources.

IRIS :

Auto - Iris controls exposure automatically, and shutter is fixed.

Manual - Iris is fixed, and gives the exposure control priority to other resources.

AGC LIMIT: To select maximum automatic gain limit.

Camera raises up gain to selected gain limit when dark conditions.

EXP COMP :

The exposure compensation function adjusts gain and iris, to keep a brightness level.

SENS UP :

Minimum slow shutter limit is down to 1/1 second.

The value means seconds.

Camera make Shutter speed longer to selected shutter limit when dark conditions.

FLICKERLESS :

This function used only for specific country to remove light flickering when light appears to flutter.

5.4. FOCUS

The camera employs a 30x optical zoom lens combined with a 12x digital zoom function. This camera

allows you to zoom up to 360x.

Optical 30x, f = 4.7 mm to 141 mm (F 1.5 to F 4.0)

Digital Zoom 12x : enlarges of the subject

7 levels of zoom speed

FOCUS MODE :

Auto mode automatically adjusts the focus position.

Manual mode adjusts the focus position by manual and when zoom is changed.

AF MODE :

Normal mode automatically adjusts the focus position.

Interval mode adjusts the focus position at time interval and when zoom is changed.

Zoom trig mode adjusts the focus position when zoom is changed.

ONE PUSH : When One Push AF command is sent, camera becomes Auto Focus mode to adjust focus

position for a while. After it stops, mode becomes that for Manual focus mode.

NEAR LIMIT : Priority for focusing distance. The lens moves to adjust the focus from the distance.

5.5. BACK LIGHT

BACKLIGHT : When background is too bright behind the object, the BLC make clearer object.

HLM - Highlight suppression reduce too bright light by masking it with specific color.

WDR : When background is too bright behind the object, the WDR make clearer images of the

background as well as the object. Wide dynamic range produce images that combining long-exposure

signals (normal shutter) with the signals of the high-intensity portions obtained with a short exposure

(high-speed shutter).

DWDR : Dark areas of image brightness correction.

DEFOG : This function affects the effect of fog removal. Furthermore, it improves visibility by removing fog, clouds, smoke, and dust.

5.6. IMAGE CONTROL

COLOR LEVEL

Color level is the colorfulness of a color relative to its own brightness.

SHARPNESS

As you increase this value, the picture outline becomes stronger and clearer. Adjust this value

appropriately depending on the sharpness of the picture.

IMAGE FLIP

Video output is set horizontally vertically, and rotate.

DNR

2D/3DNR reduces video noises at low ambient light.

SHADING

Image center and the outskirts of brightness difference correction

GAMMA

Video out brightness correction function

COLOR SUPPRESS

Color suppress reduces color noise in low illumination conditions.

5.7. DISPLAY CONTROL

DAY / NIGHT

- **AUTO** : Auto day/night mode automatically switches between Color and Black/White depending on darkness. ICR(IR cut) filter is removed when it switches to black/white.
D->N level - This level is threshold for switching day to night.
N->D level - This level is threshold for switching night to day.
Delay(Dwell) time - Checking time for condition of light to confirm changing to Color and Black/White.
Color Burst - Color burst off makes that the color burst is removed when ICR switches to black/white.
- **DAY** : The camera keeps color mode constantly.
- **NIGHT** : The camera keeps black/white mode constantly.

CAM TITLE

OSD character camera name settings..

ZOOM MAGNIFICATION

Display the Zoom scale.

PRIVACY

It is possible to set the size of the area and a video Mask.

MOTION

Video zone settings and sensitivity can be set.

IMAGE STABILIZER

This function reduces image blurring associated with the motion of a camera.

5.8. SYSTEM SETUP

CAM ID

The camera is capable of recognizing number setting up 1 to 255.

BAUDRATE

Camera communication bit rate.

OUTPUT FORMAT

Video output specification set(NTSC/PAL) and video size settings(1080p/720p)

5.9. RESET

Camera returns into initial value except ID and baudrate.

Compliments of STEMMER IMAGING USA
